# UKATA Asbestos Awareness Category A Training

It is a legal requirement that all who may come across asbestos in their day to day work have been provided with asbestos awareness training. If they will intentionally work on asbestos they must have had appropriate training specific to the tasks they will undertake. Any organisation that allows builders or maintenance personnel onto their premises should ensure that they have evidence of asbestos awareness training.

Asbestos Awareness training is essential for employees whose work has the potential to expose them to asbestos. Regulation 10 of the Control of Asbestos Regulations 2006 (CAR 2006) puts a requirement on employers to ensure that their staff has undergone suitable asbestos awareness training so that they are aware of the potential dangers they may face and also the procedures they must follow in the event they are working in the vicinity of asbestos containing materials (ACMs).

## Course Content:

- The properties of Asbestos and its effects on Health. (specific attention is paid to the increased chance of lung cancer to those workers who smoke)
- The types uses and likely occurrence of Asbestos and ACMs in buildings and plant.
- The general procedures to be followed when dealing with an emergency in the event of the uncontrolled release of Asbestos dust in the workplace.
- How to avoid the risks from Asbestos.

## Course Duration:

Half Day (4 Hours)

## Hint:

Combine this course with one of the following half day courses to maximize your training budget

- Abrasive Wheels
- Manual Handling
- Harness
- Ladders & Steps
